SharkRack S2S Baffle

The SharkRack S2S baffle was designed specifically with Cisco customers in mind. It enables side to side air movement and promotes greater airflow efficiency.

- Specifically the S2S is optimized for the Cisco MDS-9513 air director.
- Guides hot air from side to side to the rear door.
- When applied with SharkRack's patented SharkFin perforation pattern customers can take advantage of up to 72% increased airflow.
- Can be combined with SharkRack's airflow director and exhaust fans.
