

SharkRack

Cisco *live!*

June 27 - July 1, 2010 • Las Vegas, NV

The Leviton Technology Data Center Group (TDCG) and SharkRack look forward to seeing you at Cisco Live!

The Cisco Live show gives us all the opportunity to view and discuss the cutting edge technology being brought to market from Cisco and it's partners.

After viewing all of the great technology at this show, one must answer an extremely subjective question:

“On the Road to Data Center 3.0, what is the current state of my environment with respect to industry standards?”

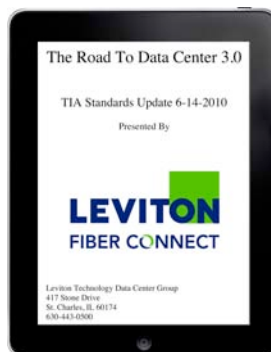

As we continue down the Road to Data Center 3.0, it is imperative that a clear understanding of the applicable standards exists.

Attached is a copy of Leviton's most recent TIA Standards Update.

At Leviton we are on the Road to Data Center 3.0. What road are you on?

We look forward to speaking with you about our strategy and your needs. The “Road” is a lonely place, let's walk it together!

See us at Booth 1861 and register to win an Apple iPad!
